MD SHOAIB SOUDAGAR

Data Analyst | Business Intelligence | SQL & Automation Specialist
Email: shoaibmms50@gmail.com | Phone: +91-7795209619 | Location: Pune, India

PROFESSIONAL SUMMARY

Data Analyst with 5+ years of experience in data warehousing, business intelligence, and process automation, specializing in large-scale process reengineering. Led two flagship automation initiatives — modernizing 500+ manual audit testing scripts into automated stored procedures and building an end-to-end Python-based SQL reporting automation tool — together delivering 7,200+ hours in annual efficiency gains and a 75% reduction in manual processing time. Currently leading a SQL Server to Snowflake migration while partnering with audit, risk, and compliance stakeholders to turn data into business insights.

KEY PROJECTS & IMPACT

Mass Stored Procedure Modernization & Automated Testing (CAT Framework)

- Converted 500+ manual SQL testing scripts into automated stored procedures, replacing a process that required the testing team to manually update scope periods, execute scripts, and build 500 spreadsheets by hand every month.
- **Major contributor** to the Continuous Automation Testing (CAT) framework, which validates 100% of the population for every testable attribute via SQL, replacing manual 10-sample spot checks with full-population pass/fail results.
- Drove a **75% reduction in manual processing time**, saving approximately **3,600 hours annually.**

Python SQL Reporting Automation

- Independently conceived, designed, and built an end-to-end Python automation tool that eliminated manual SQL data extraction and spreadsheet creation for 500 audit scripts every month.
- Removed a process that previously consumed roughly two weeks of full-team manual effort each month, cutting report turnaround from weeks to days.
- Delivered approximately **3,600 hours in annual efficiency gains** — a **75% reduction** in manual reporting time — complementing the stored procedure modernization initiative above.

Combined Impact: 7,200+ hours in annual efficiency gains and a 75% reduction in manual processing time — raising testing coverage from sample-based to 100% of population.

CORE COMPETENCIES

- Data Warehousing & ETL Pipeline Development
- Cloud Data Platforms (Snowflake, AWS/Azure)
- SQL Development (T-SQL, Snowflake SQL, Oracle PL/SQL)
- Test Automation Framework Development & Population-Based SQL Validation
- Process Reengineering & Organizational Redesign
- Data Modeling & Data Governance
- Business Intelligence & Data Visualization (Power BI, Tableau)
- Database Systems (SSMS, Snowflake, Databricks)
- Python for Data Analysis & Automation (Pandas, NumPy)
- Data Quality Management & Ad-hoc Analysis
- Workflow Automation (SSIS, Alteryx Designer)
- Stakeholder Collaboration & Cross-functional Communication
- KPI Development & Performance Reporting

PROFESSIONAL EXPERIENCE

Data Analyst (Internal Audit) | Rocket Mortgage (formerly Mr. Cooper) | Remote (Pune, India)
October 2022 - Present

Data Engineering & SQL Development

- Migrated 50% of legacy SQL Server scripts to Snowflake SQL, modernizing the data warehouse and boosting query performance while maintaining data governance standards.

- Built and optimized SQL queries for daily operations, supporting audit reports and ad-hoc analysis requests from business stakeholders.
- Learned Oracle PL/SQL and advanced dashboard techniques to create improved data models and visualizations for the audit team.
- Partnered with audit managers, compliance teams, and IT to define requirements and deliver insights for regulatory reporting.

Business Intelligence & Reporting

- Created two end-to-end Power BI dashboards from scratch, handling everything from SQL/Python data extraction to ETL, modeling, and final publication.
- Built Alteryx workflows that automated monthly reporting, saving 2,000 hours per year and improving data accuracy.
- Set up data quality checks across ETL pipelines to reduce inconsistencies and build confidence in reporting.

Data Analyst (Transaction Risk Investigator) | Amazon India | Remote (Pune, India)

August 2021 - August 2022

- Extracted and analyzed seller data using SQL Server to power executive dashboards for fraud detection and risk management.
- Updated SQL code to improve business logic, data accuracy, and query speed for faster analysis.
- Maintained Power BI dashboards for leadership, keeping KPIs accurate as business needs evolved.
- Handled IP rights issues through Amazon's Paragon system, working with legal, compliance, and operations teams to resolve seller concerns.
- Ran ad-hoc analysis and data modeling to support risk assessments for senior management.

Sales and Application Engineer | Special Metals and Equipments | Pune, India

2018 - 2019

- Built an Excel repository for procurement and sales data that enabled historical trend analysis for management.
- Created Power BI dashboards showing seller and client metrics to improve visibility into sales performance.
- Partnered with sales, procurement, and finance teams to gather requirements and deliver insights.

TECHNICAL SKILLS

- **Languages & Query Tools:** SQL (T-SQL, Snowflake SQL, Oracle PL/SQL), Python (Pandas, NumPy, Automation, Data Analysis)
- **Cloud & Database Platforms:** Snowflake (Cloud Data Warehouse), Microsoft SQL Server (SSMS), Databricks, Cloud Data Platform Architecture
- **Business Intelligence & Visualization:** Power BI (DAX, Power Query, Data Modeling), Tableau, Microsoft Excel (Advanced Analytics, Pivot Tables, VBA)
- **ETL & Data Pipeline Tools:** SQL Server Integration Services (SSIS), Alteryx Designer, Data Pipeline Development & Optimization, ETL Architecture
- **Test Automation:** Continuous Automation Testing (CAT) Framework Design, Population-Based SQL Validation, Stored Procedure Development
- **Automation & Scripting:** Python Scripting, Workflow Automation, Test Automation
- **Data Management & Governance:** Data Modeling (Star Schema, Snowflake Schema), Data Governance Frameworks, Data Quality Management, Ad-hoc Analysis, KPI Development & Reporting, Data Lineage & Documentation
- **Collaboration & Tools:** Git (Version Control), Stakeholder Management, Cross-functional Team Collaboration, Agile Methodologies

EDUCATION

- **Master of Business Administration (MBA)** - M S Ramaiah Institute of Technology | Bangalore, India | 2019 - 2021
- **Bachelor of Engineering** - BLDEA's V P Dr. PG Halakatti College of Engineering & Technology | Vijayapura, India | 2014 - 2018

CERTIFICATIONS & RECOGNITION

- Alteryx Foundation Micro Credential - Score: 86.8%
- Cooper of the Month Award - Mr. Cooper, April 2024 (Recognized for outstanding performance in data automation and process optimization prior to Rocket Mortgage acquisition)
